

# Testing pandoc-odt-filters

*José de Mattos Neto*

07-03-2018

## Testing abstract.lua

If this abstract appears as first section in document, with style configured in filter (abstractODTStyle variable), test passes.

### 1 Testing `odt-captions.lua` (2 tests)

If image and table captions below get correct LibreOffice sequence field, 1st and 2nd tests pass.

*Figure 1: Figure 1: Image by Roger McLassus - Own work, CC BY-SA 3.0, [link](#)*

**Column 1**  
value 1

**Column 2**  
value 2

*Table 1: Table 2: Dummy table*

## 2 Testing `odt-lists.lua` (2 tests)

If unordered list gets list style configured in filter (`listStyle` variable), and items get paragraph style (`listParaStyle` variable), 1st test passes.

- banana
- apple
- orange

Ordered list style must be of `numListStyle` variable, and item paragraph style must be of `numListParaStyle` variable, then 2nd test passes.

1. item 1
2. item 2
3. item 3

## 3 Testing `odt-anchors.lua` (2 tests)

If all following links work, 2 tests pass (note that image and table links point to caption).

Image link, goes to [fig. 1](#). Table link, goes to [tbl. 1](#).

## Testing `odt-custom-styles.lua` (3 tests)

If above heading gets style configured in filter (`unnumberedStyle` variable), 1st test passes.

Second test: this phrase should be in "Source\_Text" character style, with **bold here** and *italics here* and a [link to Pandoc](#) here.

Third test: below must be a bold red horizontal rule. If it appears as such, third test passes.

Fourth test following below:

This paragraph should be in "Date" paragraph style,  
with a line break after comma and **bold text here** and *italics text here*.

And this paragraph (in fact, a line block) also should be in "Date" paragraph style,  
with line breaks after each comma,

with a [link to Pandoc](#) here and a footnote<sup>1</sup>.

## 4 Testing citing performance and `odt-bib-style.lua` (2 tests)

Twenty one citations here: (BOE, 2018; COE, 2018; DOE, 2018; FOE, 2018; GOE, 2018; HOE, 2018; JOE, 2018), also (KOE, 2018; LOE, 2018; MOE, 2018; NOE, 2018; POE, 2018; QOE, 2018; ROE, 2018) and also (SOE, 2018a; b; TOE, 2018; VOE, 2018; WOE, 2018; YOE, 2018; ZOE, 2018). If these citations and following bibliography appears in correct format (according to CSL-file used), 1st test passes.

Additionally, if following bibliography gets style configured in filter (`bibliographyStyle` variable), 2nd test passes.

BOE, Joe. **Boe book**. Doe city: Doe & Joe editions, 2018.

COE, Joe. Coe presentation. Presentation apresentado em **Coe first presentation**, Doe city: [s.n.], 1 maio 2018.

DOE, Doe. Doe article. **The journal of Doe**. 2018. v. 3, n. 2, p. 1–99.
